# Our Equipment is ...

## Commercial Equipment

Carpet Machines include auto scrubbers, critical vacuums, air vacuums, burnishers (propane burnishers, too!), quiet commercial vacuums and industrial tank vacuums for dry or wet/dry applications. Floor machines scrub and buff for a resilient shine. All commercial walk-behind and rider machines are designed to be durable work-horses that are easy to maneuver. Separate motor assemblies, power sources, tank sizes, filtration systems and other features available to best fill our customers' specific needs.

Burnisher Series Electric, Automatic, Battery or Propane Powered  
 Rapid Air Carpet & Floor Dryer • ET™ Powerful Extraction Tool  
 BPV - Back Pack Vacuum • Front Runner Floor Machines  
 Gotcha! Portable Spot Extractor • Carpet Pile Lifter  
 Ambassador & Ambassador Jr. Carpet Extractors  
 Automatic Carpet and Hard Floor Scrubbers  
 Allergy Vacuum • Lead Vacuum • Clean Room Vacuum System  
 X-705 Venturi Air Vacuum • Wet/Dry Critical Tank Vacuum  
 Explosion Proof / Dust Ignition Proof Vacuum  
 Flammable Liquid Recovery Vacuum  
 Asbestos Brake Drum System  
 Mercury Recovery Vacuum

... designed to meet virtually every cleaning need.

## Industrial Equipment

**Walk-Behind and Rider Scrubbers and Sweepers** are high-powered, compact and easy to maneuver. Simple operation. User friendly controls. Sweeper/Scrubbers save even more labor time.

- Quick change, no-tool brushes and squeegees
- Excellent for high traffic and congested areas
- Wet scrub and dry vacuum in one pass, leaving floor virtually dry
- Clean tiled aisles, warehouses, construction sites & more...
- Battery, gasoline, propane and diesel units available

... keeping our customers on the leading edge of floor care technology.

## Parker Lawn & Turf Maintenance

**Litter Vacuums** are excellent for turf and hard surface cleaning; starting with 24" walk-behind to 86" rider cleaning paths. Industrial strength impellers compact debris for greater collection and less time emptying. Lightweight vacuum housings, designed for unobstructed airflow contributing to unequalled vacuum efficiency. Exceptional durability. Solid and reliable framework.

**Power Rakes for Dethatching, Verticutting, Tining & Aerating Soil**  
 Thatch-O-Matic • Portable Truck Loader • Hurricane Blower  
 Chipper Shredder • EstateTrailing Sweepers

... the most convenient and economical way to have work areas you can be proud of!

## Chemical & Floor Coating Programs

**PowerSol Series** industrial strength cleaning chemicals. Contains no solvents. Contains corrosion inhibitors. Meets USDA performance standards for A-1 & A-4 products. Excellent for use in recycling scrubbers. Includes coatings, cleaners, degreasers, ultra stripper, restoration kits, low foaming formulas, citrus powered cleansers, concentrated spot removers and our high strength alkaline system for difficult conditions. Prevents flash rusting. Powered to penetrate dried soils, oily grime and rubber tire marks.

Bring out the best in your flooring!

Convenient dispensers and dilution control systems make it easier to use  
 High performance, cutting edge products for all types of surfaces

## Minuteman International

- Serving customers for over 20 years
- Convenient locations throughout the United States
- Distribution centers in over 30 countries throughout the world
- Maintenance and repair locations with factory-trained technicians to keep equipment running year after year
- Branch offices established to provide individual attention to our customers and to better meet their needs

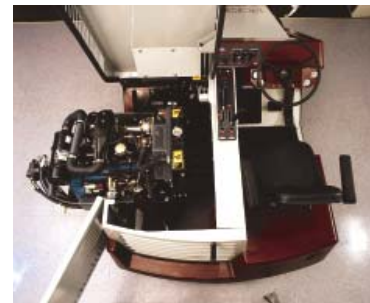

... are part of our global distribution centers to reach your business anywhere in the

## Parts, Service & Custom Maintenance Programs

**Parts** are ready-to-ship from our warehouses and parts centers. Most items shipped within 24 hours. Rush and overnight options available. Our **Service Centers** have experienced mechanics who are equipped to travel for on-site service calls to keep the customer's cleaning equipment running efficiently day after day - year after year.

**Custom Maintenance Programs** are customized to our customers' needs. Factory trained technicians take care of the upkeep and most wearables. Oil changes, replacing wearables and periodic maintenance keep a machine operating at its optimum level for years of dependable service.

... deliver equipment and cleaning chemical within a timely manner.

## Minuteman Research, Design and Proven Success

- Technologically savvy and dedicated engineers work on specific categories of machines which are used for distinct product applications such as: carpet, hard floors, concrete and turf. These highly trained, specialized engineers work with one goal in mind - to design a product in the most efficient way that performs at Minuteman's high quality standards and meets customer needs. Delivers high productivity and widest sweep path in its class.
- Minuteman continues to develop new and more cost effective methods of manufacturing and product design to keep our customers on the leading edge of floor care technology.
- Offering over 400 individual floor cleaning equipment models and over 120 individual floor chemicals for various types of carpeting, tile aisles, warehouses, parking lots, concrete walkways, large auditoriums, public parks, stock yards, construction sites, turf, landscaped areas, hazardous material recovery and clean rooms.

**Most items shipped from our warehouses or parts stocking locations within 24 hours.**

# Our National Accounts ...

- Primary listing as a National Accounts Customer
- Special parts and equipment pricing throughout the world
- Direct Communication with our distribution network
- Wider range of product demonstrations
- Streamlined purchasing to expedite order processing
- Tracks purchases and product usage to provide customers with true costs and savings of using our products.

In an effort to provide exceptional service and competitive pricing Minuteman International gives \_\_\_\_\_ the opportunity to become a member of our National Account Program. Our National Account Access allows your company consistent discounted pricing throughout the world. This agreement opens a direct line of communication between our global distribution network and your purchasing agents to more easily place and track orders. Your company will have an expanded demonstration base to try various models of our products and actually see how they will meet the cleaning needs within your company and the cleaning needs of your customers. Our streamlined ordering process tracks purchasing patterns and product usage throughout a period of time to provide you the true costs and savings of using Minuteman and PowerBoss equipment and cleaning products.

By signing this agreement, Minuteman International agrees to a relationship that enables your company and all of its locations personal attention when using any of our vast array of products. Our National Account Program provides consistent prices, an easy ordering process and great service to save your company money.
