

Minuteman[®]

Excellence Meets Clean

BPV

Back Pack Vacuum

Key Features

- Two position lid so operator can use machine right or left handed
- Light weight & ergonomic design that produces less operator fatigue
- Top fill bag design

Safety

- Exhaust air is diffused and directed away from cleaning areas, therefore eliminating the possibility of raising dust
- A 68 dba rating at the operator's ear
- Ergonomic for operator comfort and safety
- Four level filtration - dirt enters the machine and collects in the disposable paper filter, air passes through to the cloth filter, then the motor protection filter and finally through an exhaust filter for exceptional filtration

General Overview

- Lightweight and portable at 10 lbs
- Perfect for carpeted areas where upright vacuums are too cumbersome and for small tight areas where precision cleaning is required
- Ergonomic design
- Low dba rating

Productivity

- Eliminates the need for large uprights in congested areas
- Lightweight so the operator can comfortably use the BPV for longer periods of time
- Standard BPV features a powerful 1.25 hp flow-through vac motor, but is also available in 1.6 hp flow-through vac motor and 1.4 hp bypass vac motor

Ease of Use

- A 50 foot power cord, five foot hose, telescoping wand and an easy roll floor tool make maneuvering easy for the operator
- Wide padded shoulder and waist straps make the operator comfortable and adjust to any size user
- Proper weight distribution cuts down on operator fatigue
- Easy to reach on/off switch
